

Year 5 Autumn Term Newsletter 2021

Welcome to Year 5! We hope you had an enjoyable break and are feeling well rested. We are excited to be working with all of you throughout Year 5.

The children worked thoroughly in Year 4 to ensure they have caught up with as much missed learning as possible. I would like to say a massive well done to all children and parents who have engaged to the best of their ability.

We begin this exciting new term by understanding about Earth and Space. Alongside this, we will cover The Ancient Greeks as well as learning about different ocean currents.

In maths we begin by covering Place Value and touching upon 6 digit numbers for the first time. Following on from this we are going to consolidate addition and subtraction, using formal methods as well as reasoning and problem solving. Furthermore, we are moving onto multiplication and division. This is so that children can multiply by 1 and 2 digit numbers. As well as being able to divide using the bus stop method.

In our English work, we will be exploring the texts Cosmic and Curiosity. This will then be applied into our work to apply this to a range of genres.

The children will be continuing with missions and WOW lessons to develop their emotional intelligence as well as personal and social skills. These can be applied into everyday life.

Children will continue to take part in French, music, computing and PE lessons every week.

If you have any questions please feel free to speak to a member of the Year 5 team before or after school. We are:

R. Foster, D.Griffiths, H. Stancliffe and D. Hatton

Thank you for your continued support.
